

Unto their Majesties Guillaume Tomas and Alyna, Their Highnesses Cuan and Signy, and Their Excellency's Wolfgang and Iseulte, greetings.

We, Lord Hjörri Guðmundson and Lady Arnóra in Rauða do humbly submit our letter of intent to hold the lands known as The Barony of Caer Mear in trust for our fair kingdom of Atlantia and Her crowns.

During the more than ten years Hjörri has been a part of the Society, he has served in many capacities within the barony. He has been the voice/court herald for Their Excellency's Augustin and Aine as well as Wolfgang and Iseulte, also retaining for both when needed. When the former quartermaster could no longer fulfill his duties, Hjörri stepped up and held that office for several years, facilitating the organizing, maintaining and transporting of the baronial property proficiently. He has served as the Deputy Webminister since 2011, working with Arnóra to redesign and maintain the website. In recent years, he was the deputy Seneschal, stepping up when the presiding Seneschal moved outside of our borders, and has held that position for the last several years. Hjörri has received several awards for his service to both Barony and Kingdom over the years and is currently protégé to Countess Honor of Restormel, following the path of the Pelican.

Arnóra has also been a member of the society for just over ten years. She has served as Webminister and more recently, taken the office of Chronicler and combined them to become the Communications officer for Caer Mear. She has retained for Their Excellency's Caer Mear during numerous tenures as well as serving as support staff during many Golden Rose and Crown Tourney's. In 2013, she stepped up to steward her first event, Ruby Joust II. This marked the first appearance of the Equestrian community at the joust, an addition that has continued through to today. Arnóra has also received several awards for service to both Barony and Kingdom over the years and is currently protégé to Countess Honor of Restormel, following the path of the Pelican.

While we have several goals and dreams for the barony, two of them stand out. In recent years, there has been a surge of idleness among the youth. One of our goals is to build up youth activities for not just the children, but the teenagers as well. Without direction, they will continue to fall into the "I'm bored" trap and we could lose our future as they decide to not continue to participate. We believe that working with the Chancellor of Youth and listening to the older children as to what they want from the SCA will help preserve their interest and in turn, the future of the Society. The second goal is to help rebuild the Baronial presence at events. Over the years, the Baronial camp at Pennsic has shrunk to less than ten gentles and there has been no presence at War of the Wings. Due to this, not only have our lands shrunk, but we have been unable to hold any form of camp social activities as we have in the past. It is time to bring Caer Mear back from being more than just a few gentles huddling around a fire to a force the Kingdom can call on at any event.

We remain, as always, In Service,

Lord Hjörri Guðmundson                      Lady Arnóra in Rauða
